TO OUR CUSTOMERS...

EXAMINE YOUR COLLARS AND CUFFS.

NOTICE the absence of former BRITTLENESS which caused the work *to break so readily.*

We have just put in, at a great expense, *a wonderful machine,* heated by steam - work only passing through the rollers once. The result: "Work is elastic, will not break and will last much longer than when ironed by *the old method*—heated by gas."

PARISIAN STEAM LAUNDRY CO. OF ONTARIO (Limited).

IF it is in the NEWS it will be in the other London papers the next day.

The NEWS is delivered to your home for 25 Cents per month.

Beethoven's Music

Is so full of chromatic successions that it is absolutely unplayable on a common piano. Beethoven used every known trick that the piano of his day could accomplish. On the "BELL" Piano, Beethoven's music can be played as it should be—the fulness of the tone, the power to hold notes as long as the finger is held down, and the distinction of the base notes one from the other—all render this music practicable and enjoyable on "BELL" Pianos. We are only too glad to show this Piano to all callers.

IT NATURALLY FOLLOWS

That you have to pay more in the large stores. Large profits are required to pay high rents, etc. My place is small, rent low and profit meagre, but my work will compare favorably with the best. If you have your own cloth, bring it along, and I will make it up in the best possible style, and the cost will be reasonable.

DO YOUR EYES FLOW

Or do your eyes close when exposed to a bright light? Better let a refractionist, who is an expert, make an examination. He can tell you just what the trouble is, if there is a trouble. If you should wear glasses, the sooner you do so the better for your future health and peace of mind.
